

# Secure Chrome

## Accessing the Menu

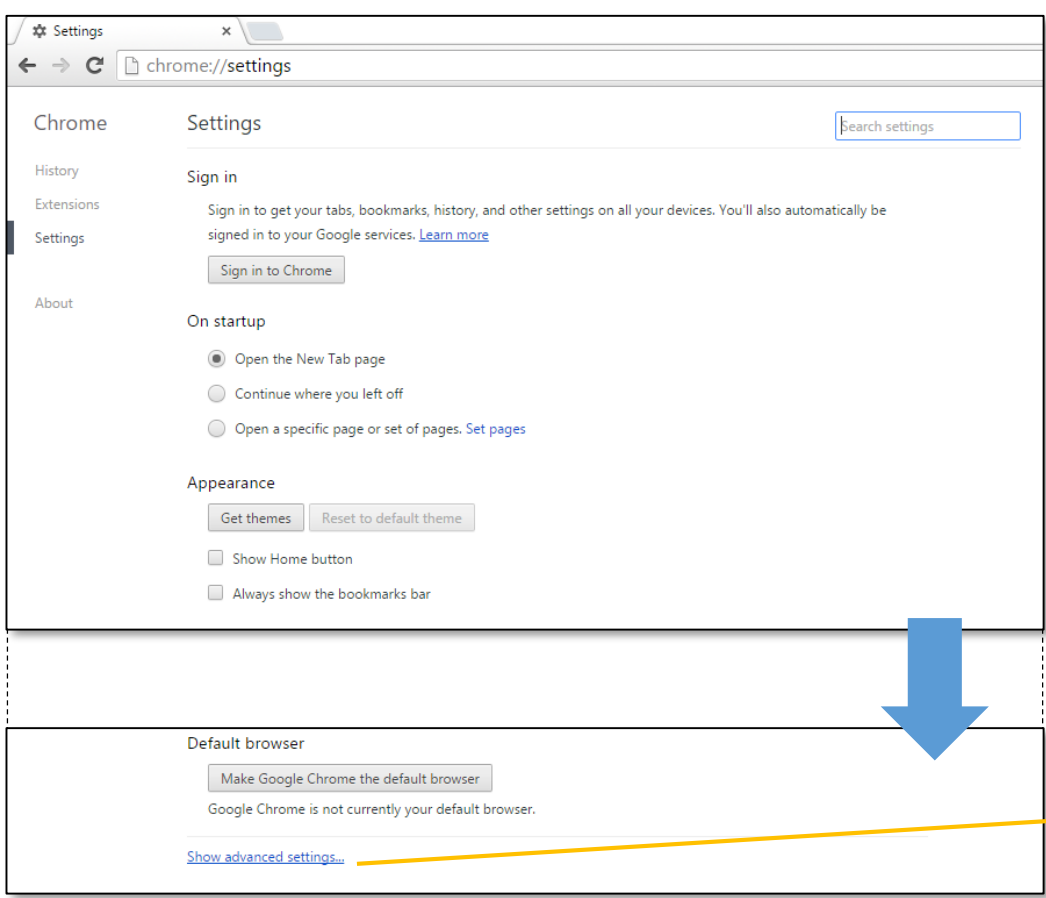

Click here to access the menu...

Then select 'Settings'

## Accessing Advanced Settings

Scroll down to the end of the page and then click 'Show advanced settings'

## Privacy and saved passwords

### Privacy

[Content settings...](#) [Clear browsing data...](#)

Google Chrome may use web services to improve your browsing experience. You may optionally disable these services. [Learn more](#)

- Use a web service to help resolve navigation errors
- Use a prediction service to help complete searches and URLs typed in the address bar or the app launcher search box
- Prefetch resources to load pages more quickly
- Automatically report details of possible security incidents to Google
- Protect you and your device from dangerous sites
- Use a web service to help resolve spelling errors
- Automatically send usage statistics and crash reports to Google
- Send a "Do Not Track" request with your browsing traffic

### Passwords and forms

- Enable Autofill to fill out web forms in a single click. [Manage Autofill settings](#)
- Offer to save your web passwords. [Manage passwords](#)

*Using the settings shown above does not guarantee security, but will help to reduce exposure. Note that websites can ignore 'Do Not Track' preferences.*

# Content settings - Cookies

# Control location tracking

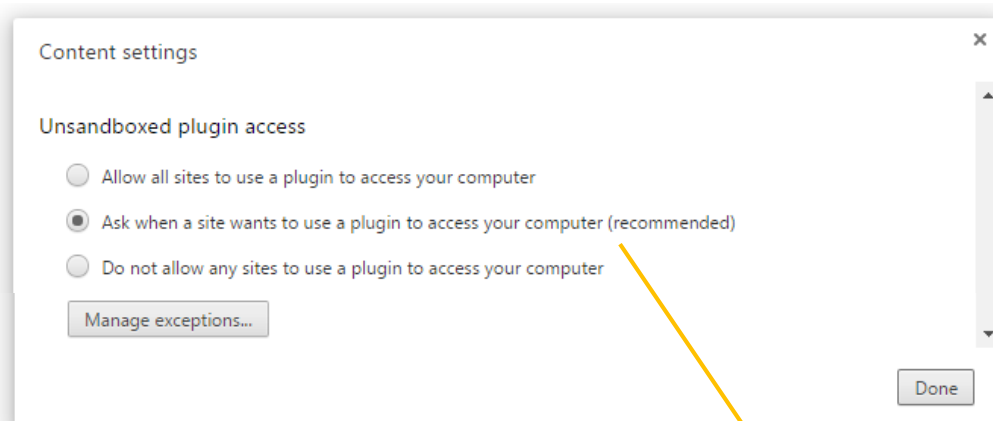

## Content settings – Microphone & Camera

*Unless required, do not allow sites to access your microphone or camera.*

## Control location tracking

*Limit the ability of websites to freely use browser plugins to access your device.*

***Only experienced users and administrators should adjust the other settings on this page.***

## Access 'Clear browsing data'

The screenshot shows the 'Privacy' section of the Chrome settings. A yellow box highlights the 'Clear browsing data...' button, with a callout box pointing to it that says 'Click 'Clear browsing data''. Below this, a list of checkboxes is shown, with several checked. A red diamond with the number '1' is in the top right corner.

## Clear browsing data

The screenshot shows the 'Clear browsing data' dialog box. A yellow box highlights the 'Clear browsing data' button, with a callout box pointing to it that says 'Set as shown to clear most of your browsing history.'. A red diamond with the number '1' is in the top right corner.

Clear browsing data

Obliterate the following items from: the beginning of time

- Browsing history
- Download history
- Cookies and other site and plugin data
- Cached images and files
- Passwords
- Autofill form data
- Hosted app data
- Content licenses

[Learn more](#) Clear browsing data Cancel

Saved content settings and search engines will not be cleared and may reflect your browsing habits.

Using the settings shown above does not guarantee security, but will help to reduce exposure. Note that parts of your browsing history may still be saved elsewhere.
