You will be put through to a team of advisers who will inform you what action is needed based on the latest public health advice. If, following triage, further expert advice is required the adviser will escalate your call to the local health protection team. The health protection team will also contact providers directly if they become aware that someone who has tested positive for coronavirus (COVID-19) attended the education setting - as identified by NHS Test and Trace. • In the case where the pupil may have spent their college day in a number of classrooms, all rooms should be closed and cleaned as per guidance. • Inform staff (using appropriate caution) • Contact parents or a member of the same household and request immediate pick up • Only in exceptional circumstances, and when agreed with SMT, should a student be transported by a member of staff. If this is necessary, a risk assessment and control measures must be implemented • If a student or staff member develops symptoms compatible with coronavirus (COVID-19), they should be 	<ul style="list-style-type: none"> • Any members of staff who have helped someone with symptoms and any learners who have been in close contact with them do not need to go home to self-isolate unless: <ul style="list-style-type: none"> They develop symptoms themselves (in which case, they should arrange a test), If they subsequently test positive through an LFD/PCR test and/or they are requested by NHS Test & Trace.
